	 date information to ensure you receive the best possible care and support by those supporting you. In order to enable this sharing of information, organisations who use the KMCR have agreements in place that allow the sharing of personal and special category data. For further information about the Kent and Medway Care Record and the ways in which your data is used for this system please click <u>here</u>.
Population Health Management	Your information is passed, with all identifiers removed to NHS Kent and Medway for public health management. This enables the Practice to identify the appropriate level of care and services for distinct groups of patients. It is the process of assigning a risk status to patients, then using this information to direct care and improve overall health outcomes.
National Data Opt- out	 The National Data opt-out is a service that enables patients to opt-out of their confidential information being used for research and planning. The National Data opt-out can be applied <u>here</u>. It is worth noting that in a small number of exceptional circumstances, where senior health care professionals can decide to share information based on public interest, and in these cases the National Data Ot-out does not apply. The <u>Confidentiality Advisory Group</u> (CAG) considers applications for the use of patient data without consent under the following regulations of Control of Patient Information Regulations 2002, Section 251 of the NHS Act 2006: Regulation 2 – for diagnosis and treatment of cancer Regulation 5 – for general medical and research purpose Specific exemptions to the national data opt-out policy have been made for disclosure of data for: Public Health England National Disease Registers Assuring Transformation National patient experience surveys
	2012. National data opt-outs do not apply where NHS Digital indicate data should be provided to them under s259 of the Health and Social Care Act 2012.
